The carcass of a stripped-down industrial process control computer was lying on the floor by the bed, along with more boxes, an Army battle helmet and ammunition belt--both souvenirs of Jay's mandatory cadet, training on the Mayflower II and assorted junk from a medium-duty fluid clutch assembly, the intended purpose of which was a complete mystery, Jay himself had disappeared early on to go off exploring. Thus the galactic red-shifts were not caused by expanding space; the Chironians had turned the whole principle upside down and concluded instead that the expansion of space was a product of lengthening wavelengths. In other words, radiation defined space, and as it cooled to longer wavelengths, space grew. Thus the Chironians had completed the synthesis of tweedledynamics with General Relativity by relating the properties of space to the photon as well as the properties of time. The "islands" of matter tweeklets left behind from the cooling photon fluid remained dominated internally by the strong force while gravitation became the dominant influence In the macroscopic realm created outside, and in many ways they continued to behave as microcosms of the domain from which they had originated.. "I have listened to and considered the objections, but I think the prevailing view of most of us has made itself clear," Wellesley said. "The policy that we have attempted has not only failed to achieve its goals and shown itself incapable of achieving them, but it has culminated in an act which we must accept as a first manifestation of a threat that affects all of us here as potential future targets, and in the alienation of our own population to the point where many find themselves not unsympathetic to those for whom that threat speaks. Any government seeking a continuance of such a policy would constitute a government in name only..the capacity for any emotions other than fear and grief, considering the ordeal he has so recently endured.. Falls stood awkwardly and began moving toward the door. When he was halfway there he stopped, hesitated, then turned round again. "Sir, there's just one thing I'd like--". Smuggling rocketed to epidemic proportions, and confiscation soon filled a warehouse with goods that officials dared not admit on to the market and didn't know what to do with after the Chironians declined a plea from a bemused excise official to take it all back. The Chironians outside Phoenix continued to satisfy every order or request for anything readily; Terran builders who had commenced work on a new residential complex were found outside and turn her free?".
