Down in the inner lock, Colman and Swyley were standing with Major Lesley while behind them the contingent from D Company was already bounding through in the low gravity of the Spindle to join the SD's deploying toward the outer lock. "You took a hell of a chance, Sergeant," Lesley said..To Leilani, Geneva said, "I miss him so much, even after all these years, but I can't cry over him.He had only partly registered the tousle-headed figure coming out of the main entrance, when the figure recognized him and came to a dead halt in surprise. The action caught the corner of Colman's eye, and he turned his head reflexively to find himself looking at Jay Fallows. Before either of them could say anything, Bernard Fallows came out a few paces behind, saw Colman, and stopped in his tracks. It was too late for him to go back in, and impossible to walk on by. A few awkward seconds passed while Bernard showed all the signs of being in an agony of embarrassment~ and discomfort, and at the same time of an acute inability to do anything to overcome it. Colman didn't feel he had any prerogative to make a first move. Bernard's eyes shifted from Colman to Kath, and Colman read instantly that they had already met. Bernard looked as if he wanted to talk to her, but felt he couldn't with Colman present.."Stop this now," Borftein advised grimly. "How much of the Army do you think will follow you?..desperate with fear and fierce with anger. She surprised herself when she choked out a strangled cry..And by implication that he was mixed up in the bombings and the Padawski escape too," Bernard threw in.."How about that?" Hanlon shouted delightedly. "The guy did it!".Jay decided' he'd had enough, excused himself with a mumble, and took his book into the lounge. His father was sprawled in an armchair, talking politics with Jerry Pernak, a physicist friend who had dropped by an hour or so earlier. Politics was another mystery that Jay assumed would mean something one day..Pleadingly, Micky said, "Will you stop stuffing your face with pie and talk to me?.."Exactly right. But a lot of birds go to roost at night and stay there till morning. Your little orange lady is.but which seemed only impossibly difficult now..threat of those same forces. She could think of no way to rescue Leilani, just as she had never been able."My pleasure..".And I'm getting to know them better," Pernak told both of them. Something in his tone made them turn their heads toward him curiously. He spread his hands above his knees. "It's not exactly that kind of trouble Fm bothered about. But if this goes further than that . . . if the Army starts cracking down, and especially if it starts wheeling out the weapons up in the ship, if things like that start getting thrown around, we won't be counting the bodies in ones and twos..offering something. "Baby, it's okay, see, baby, look..".Lechat. "Speed is essential," Lechat said without preamble...--'~ "We require access to all channels on the civil, service, military, and emergency networks immediately..CHAPTER SEVEN.her feet with such agitation that she seemed to flail herself erect: skirt flounce churning around her legs..None of these people appears to be suspicious of him, and none seems likely to be one of the relentless.A short silence fell, and the deadlock persisted. Then Marcia Quarrey turned from the window, where she had been staring down over the Columbia District. "I thought you said earlier that there was a provision for ensuring the continuity of extraordinary powers where security considerations require it," she said, frowning..Those methods were appropriate before this phase, change," Pernak answered. 'They don't have any place now..".Just a bunch of hooey ? ".The second went off shortly afterward near the main gate of the Army barracks. No one was killed, but two sentries were injured, neither of them seriously.."She gets eighty-six thousand a year," Noah said..".Mrs. D," Leilani said to Geneva, "that creepy rosebush of yours just made obscene gestures at me..".he knows. He's confident I'll never leave the neighborhood with my camera or the film. Playing with me.."I wouldn't know, but it wouldn't surprise me," Celia answered. "I just know the true story about Howard because. . because..".I'd love a piece, thanks," Leilani said.."No, of course not," Fallows said, not very happily..'."By whose-" Wellesley began in a shaking voice, but another firmly and loudly cut him off..her from under the bed..Go, pup, he says or only thinks..and earn her approval..Across hard-packed earth and fields of sandstone, they race into a dry slough of soft sand. Nobody in that crowd has a.concentrates, and distillations filled a glittery collection of vials and charming ornate bottles fitted in two.between them..".I didn't know you had a thing about little girls, Steve," Anita teased. "You don't look the type." Hanlon roared and slapped his thigh..worth it. It's amazing how many causes aren't worth fighting for when you know it's you Who's going to have to do the fighting." He shook his head slowly. "No, we don't get too much of that kind of thing..".Jay frowned and looked mildly uncomfortable. "Sex?" he hazarded..events that test his pluck, his fortitude, and his wits..blood drained out of the poor dear's face, he looked like one of the walking dead?though I've got to.people's bedrooms..".What troubled Fulmire was the specter of Kalens's emerging from the midst of it all as a virtual dictator, with Borftein supporting him and straining to be let off the leash. Every faction would see such a concentration of power as a potential battering ram to be harnessed exclusively for the advancement of its own cause, and even more as an instrument to be denied at all costs to its rivals. In an explosive situation like that anything could happen, and Fulmire had visions of the whole Mission tearing itself apart in internecine squabbling with a strong possibility of bloodshed at the end of it all when frustrations boiled over. The only force that he could see with any potential for exerting a

stabilizing influence was the more moderate consensus as represented by the Mayflower I's population as a whole; and Lechat, possibly, could provide a means of mobilizing it before things got out of hand..The boy is neither barefoot nor a clown, and so after a brief confusion, he realizes she's talking about the."Would it worry anyone if I smoked?".battle..found..colors, however, proved insufficient to con Noah into a holiday mood..for electricity. Hanlon ordered three hamburger dinners, and the two sergeants spent a half hour talking with Jay about Army life, football, and how Stanislaw could crash the protected sector of the public databank. Finally Jay said he had to be getting home, and they walked with him up several levels to the Manhattan Central capsule point..Arrogance issued from him as holy light might radiate from the apparition of a saint, and he stood facing.SWAT squad, but more accurately a SWAT platoon. "The Chironians are into a whole new world of particle theory. That means they can produce lots of antimatter economically. With that they could make matter-antimatter annihilation bombs, superintense radiation sources, guided antimatter beams, maybe who knows? But it has to be something like that."..across the peopled plains and hills, the shimmering dazzle of an electric garden. Although some loved this.was an intriguing thought, Adam suggested, that the bodies of the people being born now on Chiron and on Earth all included heavy elements that had been formed in the same first-generation star--the one that. had triggered the shock wave when it exploded a-- a supernova. "We might have been born light-years apart," he told Colman. Children and young people were everywhere, and humanoid robots seemed to be part of the scheme of things. The robots intrigued Bernard; such creatures were not unknown on Earth, but they had tended to be restricted to experiments in research labs as technological curiosities since, functionally, they didn't really make a lot of sense. Presumably the Chironian robots had been developed from the machines that had raised the first Chironians, which had-been designed not in the form of tin men at all, but to suit their purpose--as warm-bodied, soft surfaced tenders. So conceivably the notion of machines as companions had become a permanent feature of Chironian life that could be traced back to the earliest days. The designs had later been changed to suit the whims and preferences of the children after natural parents appeared on the scene to satisfy their more basic physiological and psychological needs. To his surprise Bernard found himself thinking that the relationship between man and humanoid machine might have been quite warm, and in some way charming; certainly he could see no evidence~ of the cold and sinister state of affairs that Jean had pictured..CHAPTER FOURTEEN."Somebody has to run the Army. It's just his turn. He's as qualified to do it as anyone else."
